

CDR Call for Articles: ***NOW OPEN!***

Theme: Information Operations

Important Dates

Full Article Submission Deadline: March 15, 2020

Notification of Article Acceptance: April 15, 2020

Summer CDR Publication: July 15, 2020

The Army Cyber Institute (ACI) at West Point publishes *The Cyber Defense Review* (CDR) to contribute to the global commons, advance the body of knowledge, and capture a unique space that combines military thought and perspective from other disciplines.

The Summer CDR seeks multidisciplinary research articles, professional commentaries, and research notes related to Information Operations (IO). This special edition will explore IO at an unclassified level and in the context of:

- Information Environment
- Information Warfare
- Commander's Responsibilities
- Army Strategic Roles
- IO Threats and Challenges
- IO Training
- IO Policy
- IO Legal and Ethical Dimension

The CDR is the leading U.S. Government journal on cyber. It provides a venue for intellectual dialogue, fresh ideas, relevant content, and insight into future trends, from cyber innovators and leaders. We look forward to the international cyber community contributing thought-provoking submissions on this critically important topic.

Submission Guidelines

Authors are asked to submit original and unpublished work through the CDR *ScholarOne* paper submission platform. The accepted articles will be compiled into the Summer issue as a special edition of the CDR. It will be printed in hard copy and published on the journal's website and distributed through JSTOR – the world's premier digital library with a wide range of scholarly content. JSTOR will include the special edition of the CDR as part of its Security Studies collection distributed through a technologically advanced platform reaching 8,000 research institutions and libraries in 160 countries.

Submit papers via *ScholarOne*: <https://mc04.manuscriptcentral.com/cyberdr>

Indicate your intention to be considered for the Special Edition in the Submission notes.

We look forward to your CDR submissions and thank you for joining the cyber conversation!
